NIPPON SHOKUBAI announces an expansion of Acrylic resin for optical materials “ACRYVIEWA” production capacity

NIPPON SHOKUBAI CO., LTD. [Headquarters: Chuo-ku, Osaka; President: Masanori Ikeda, TSE:4114] (“NIPPON SHOKUBAI”) expands its Acrylic resin for optical materials “ACRYVIEWA” production capacity to meet its active demand.

Acrylic resin for optical materials “ACRYVIEWA” is first commercialized by NIPPON SHOKUBAI in 2006, and it improves performance of LCDs for large screen TV, smartphones, tablets and so on.

NIPPON SHOKUBAI, existing annual production capacity is 6,000 T/Y, will build a new ACRYVIEWA plant with an annual production capacity of 3,000 T/Y at Himeji Plant, to respond its highly growing demand.

Feature of the capacity expansion

Production capacity	ACRYVIEWA 3,000 T/Y (Including the current capacity 6,000T/Y, total capacity is 9,000T/Y.)
Schedule	Mechanical completion: End of April 2016
Location	Existing site of Himeji Plant

NIPPON SHOKUBAI continues to deliver the new values globally throughout our unique products like ACRYVIEWA, and strives to achieve its group mission of “TechnoAmenity; Providing affluence and comfort to people and society, with our unique technology”.
